

Kings College Hospital (KCH) and Advanced Accelerator Applications (AAA)

Project Name: Optimising patient access to NET therapies Project

Project Summary: Kings Health Partners and affiliated Centres ENETS Centre of Excellence is a well established regional centre for treatment of patients with neuroendocrine neoplasms. To help improve access to therapy and co-ordinate care in this hub and spoke model we will appoint a RLT fellow to support and co-ordinate care for patients. The fellow will also provide education in the region in management and investigation of NETs.

Expected Benefits:

Benefits for patients:

1. Reduction in time to treatment from a decision to treat.
2. Increased Number of hospital appointments required for therapy.
3. Improved access for therapy
4. Increased Number of patients treated with RLT
5. Improved Quality of Life

Start Date & Duration:

24 months
