

Sponsorships ^[1]

Healthcare organisations, professional societies and sometimes patient support groups may wish to approach Novartis for sponsorship e.g. asking Novartis to pay to sponsor a meeting for which Novartis will receive tangible benefits e.g. stand space, a number of places to attend the conference, a mention in the meeting brochure etc.

Novartis is pleased to consider such requests and healthcare organisations and professional societies should approach either their sales, marketing or medical contact. Any request from patient support groups should be directed to the Head Office Patient Advocacy Team. If an organisation does not currently have a contact within Novartis, please telephone our main switchboard (01276 692255) and you will be directed to someone appropriate.
