

Collaborative working

At Novartis UK, we're proud of our ongoing partnership with other organisations, including the NHS. We are committed to working with them to deliver better care for patients. Our collaborative work includes joint working projects with the NHS which are patient centred, as well as other projects that provide benefits to the NHS or other organisations in wider terms. Together these are known as Collaborative Working Projects.

[You can find details of our joint working projects with the NHS here.](#)

Below, you can find details of our collaborative working projects, both in progress and completed.

Live collaborative working projects

April 2024

Mount Vernon Hospital, East & North Hertfordshire NHS Trust

Novartis Re-imagining Care Pathways Collaborative Working Project (**NCRP CWP**) for Mount Vernon Hospital.

[Read more](#)

May 2024

Norfolk and Norwich University Hospitals NHS Foundation Trust

The Reimagining Care Pathways CWP is a service offered by Novartis, which comprises a series of workshops, with the aim of providing pathway mapping support to the CW Partner.

[Read more](#)

March 2024

University Hospitals Bristol and Weston NHS Foundation Trust, Trust Headquarters Marlborough Street, Bristol BS1 3NU

The Reimagining Care Pathways CWP is a service offered by Novartis, which comprises a series of workshops, with the aim of providing pathway mapping support to the CW Partner (healthcare and service teams).

[Read more](#)

February 2024

Royal Free London NHS Foundation Trust, Pond St, London NW3 2QG

The aim of this Collaborative Working Project (CWP) is to recruit one full time equivalent (FTE) Multiple Sclerosis (MS) Pharmacist to support the Trust MS service with management, review, and follow up of MS patients.

[Read more](#)

Norfolk and Norwich University Hospitals NHS Foundation Trust, ("NNUHFT")

The Collaborative Working Project (CWP) aims to free up capacity within the breast cancer pathway with the addition of a dedicated new role (the "Systemic Anti-Cancer Therapy Clinical Nurse Specialist (SACT CNS)") providing pre-treatment education and optimisation, and support for the management, pre-assessment,

review, education, and follow-up of metastatic breast cancer (“mBC”) patients who are eligible for Systemic Anti-Cancer Therapy (“SACT”) therapies.

[Read more](#)

January 2024

University Hospital Sussex Rheumatology Physician’s Associate

The aim of this Collaborative Working Project (“CWP”) is to ease the current backlog for Rheumatology patients waiting to be seen and ensure patients are accessing specialist treatment and management at the right time at the University Hospital Sussex NHS Trust (the “CW Partner”).

[Read more](#)

Leeds Teaching Hospitals NHS Trust

The CWP aims to develop a new service model at the CW Partner for identifying and diagnosing axial Psoriatic Arthritis (axial PsA) in early Psoriatic Arthritis (PsA) patients by funding a research fellow to implement an MRI risk stratification and optimisation of medication review as a result of the MRI results.
